Navigation Sciences is pleased to announce that Kurt Kruger has joined Navigation Sciences as an Advisor. Kurt brings a wealth of MedTech expertise from a 30-year career that has spanned investment banking, equities research, medical device product design, development, commercialization, and fundraising in both public and private settings.

Early in his career, as a marketing manager at Guidant, now a part of Boston Scientific, Kurt developed the launch plans for the first-ever implantable defibrillator. As a securities analyst, he led Hambrecht & Quist's efforts in providing venture funds for, and then taking public, Ventritex, later acquired by St. Jude Medical, which Abbott ultimately acquired. After H & Q, Kurt worked as an analyst for Montgomery Securities and Bank of America. Across 20 years of research work, Kurt has overseen the IPOs of more than 30 medical products companies. Later, he headed up the Life Sciences banking effort for WR Hambrecht & Co.

Kurt received a Sc.B. degree in Biomedical Engineering from Brown University; a master's degree in Bioengineering from the University of Michigan and a business degree (S.M.) from the Sloan School at the Massachusetts Institute of Technology (MIT).

As always, thank you for your support.

Sincerely,

Alan
